Charge speaker 0x800 ..

The error occurs, for example, during system restores. Troubleshooting as follows:
1. Start dns.comfort Client via

Start / All programs / dns.comfort / Client

dns.comfort.pro
- Client
- SonicPad
- Maintenance
- Workflow Pass
- Workflow central
- Server
  - Administration
  - Stop Server
  - Start Server
  - Statistics
- Offline Speech recognition
  - Stop Offline Speech recognition
  - Start Offline Speech recognition

dns.comfort - Client

Please select a user:
- Cabinet
  - Docteur Picard
  - John Brown
  - M. Astérix
  - Marina

5. Start

Start!

2. Select speaker

3. Select language

4. Check the box

Start options
Language: English
☐ renew local speaker profile (-fl)
☐ Correction site - no microphone necessary (-fc)

NEW: "Delete" (Online dictation) / "Forward" (Recorder)
Ctrl+NEW: "Send" (Online dictation)

ℹ - Correction menu

INS / OVR: Switch from insert to overwrite

REC: Microphone ON

Forward: At the end of dictation
Play / Stop: Play-back of the dictation
Rewind: At the beginning of dictation
F3 – Spelling window
F2 – Dragon Dictation window
F1 - Add selected text as a phrase
Ctrl + F1 Edit phrase

Rolling ball like mouse,
Left key – left mouse button,
